Software Developer · Montréal

Divya Gate

Software developer with 9+ years of experience building web applications and user interfaces. I work across the full stack with C#, .NET Core, React and SQL, and I'm now learning machine learning and agentic AI to build AI-powered applications.

Experience

Mar 2025 – Present

Software Developer

Pacific Programming & Tech Inc. · Montréal, hybrid

- Develop features across the full stack using C#, .NET Core, React, APIs and databases.
- Implement designers' Figma designs as production interfaces in .NET Core.
- Use Git daily: branching, pull requests and code review. Use AI coding assistants for development and Git tasks.
- Release code to production through DevOps pipelines.
- Take part in sprint planning and Scrum ceremonies with the team.

Aug 2021 – Mar 2025

Front-End Developer

Pacific Programming & Tech Inc. · Montréal, hybrid

- Took over a production website with many open issues. Cut bugs by about half and cleared the backlog by fixing defects and releasing small updates frequently.
- Improved SEO standards and reduced page load time from about 6 seconds to about 3.
- Built features for an online casino platform with C#, .NET Core, HTML, CSS (SCSS) and JavaScript: deposits, withdrawals and promotions.
- Developed two-factor authentication to secure user accounts.
- Redesigned the whole website with a dark mode.
- Worked in an Agile environment, delivering rapid iterations for international clients.

Mar – Aug 2019

UI Web Developer

INTA Technology · India

- Designed and implemented the initial version of a health care web application in C# on the .NET framework.
- Built responsive front-end features for the web application.
- Created and updated design mockups, built reusable code, and tested and fixed issues before deployment.
- Took part in Agile Scrum sprints.

Sep 2016 – Feb 2019

Web Producer / Front-End Developer

Investis Digital · Vadodara, India

- Built Sitecore (C# .NET) sites on individual and team projects: sublayouts and templates in HTML5, CSS3, JavaScript and Bootstrap, including multilingual content pop-ups.
- Optimized pages for speed and scalability and kept brand consistency with W3C-compatible code.

Jul – Sep 2016

UI/UX Designer and Developer

Myrestica Technologies Pvt Ltd · Vadodara, India

- Designed and built the Livears social media web application with PHP CodeIgniter.

Aug 2015 – Mar 2016

Program Analyst Trainee

Zootar Software Pvt Ltd. · Vadodara, India

- Worked on an educational app using Node.js, Express, HTML5, CSS3, JavaScript, jQuery, AJAX, GitHub and MongoDB, and added new features to the system.

Skills

Front end	HTML5, CSS, SCSS, Bootstrap, JavaScript, TypeScript, jQuery, React, responsive design, web performance, SEO
Back end	C#, .NET Core, ASP.NET MVC, Entity Framework, REST APIs, JSON, two-factor authentication, payment flows, SQL Server, MySQL
